

The original

Extensive research and development resulted in PC Cox designing an applicator for dual component cartridges for the industrial and automotive marketplace.

With over 50 years of experience in the manufacture of hand-held applicators, the MR50 incorporates a number of enhancements and design features that are widely regarded by the specialist professional market.

MR50TM

Dual Component Multi-Ratio applicator

**Produced by the world's leading
manufacturer of sealant applicators.**

MR50™ Dual Component

Flexibility

The Cox MR50 can be used with all makes of S Type and rectangular base 50ml cartridges.

Low cost of ownership

Only one single dispenser required for 25ml, 50ml and 75ml cartridges

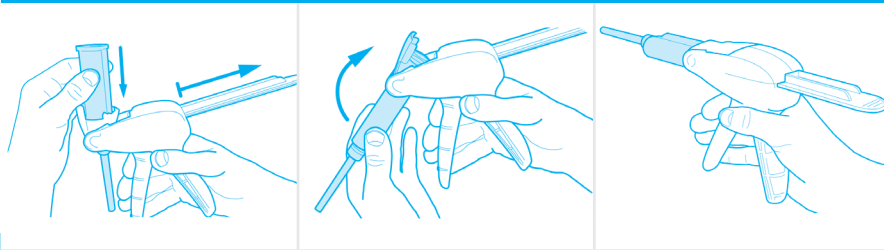

Powerful

Ergonomic handle and trigger mechanism is engineered to provide high thrust with easy comfortable operation – even for high viscosity materials

Breech loading

Simple breech loading mechanism ensures all cartridges are held securely and correctly in position to ensure optimum output

BREECH LOADING

1: Easy to use

Simply change plunger rack and unique patented cartridge holder

2: Adaptable

Cartridges can be changed with ease

3: Versatile

Changeable breeches and plungers allow use of a variety of cartridge ratios

4: Unique

The only dispenser on the market that takes the range of cartridge ratios

CARTRIDGES

Cartridges
